50 CENTS PER MONTH

GIANTS ONCE MORE MEET DEFEAT

Athletics In Errorless Game Won Out in Close Score of 6 to 5

MACK'S MEN PROPHECY 2 STRAIGHTS FOR GAMES

Day Perfect For Contest—Solons in House Received Game Play by Play

SHIBE PARK, PHILADELPHIA, Oct. 10.—The Athletics took another step towards the world's championship today, when they defeated the fighting Giants after McGraw's men made final desperate rallies in the seventh and eighth innings. Bender weakened greatly toward the end, but in the ninth the tail end of the Giants' batting order was up, and he pulled through.

Merkle's error in the fourth on Barry's foul, which would have made the third out, really cost the game, for Barry then doubled, scoring two. Merkle and his best to retrieve himself by driving out a home run with two on in the seventh.

Demaree was easy for the slugging Mack men, but Marquard was invincible after getting warmed up, holding the Athletics hitless after his first inning. Mathewson will undoubtedly pitch for the Giants tomorrow, with Shalkey or Brown for the Athletics.

PHILADELPHIA, Oct. 10.—Cloudy, dark weather and a chilly day were auspicious for the fourth game of the world's series. There has been no rain since yesterday, and none was expected today. The crowds gathered early at Shibe Park Gates, and ticket speculators were again busy, although prices were cut. The Athletics were heavy favorites in the betting. No announcement of pitchers was made by the managers before the game.

The Giants' supporters were cheered by the announcement that Merkle's ankle was better, and that he would probably be able to play the entire game. Meyers' thumb was still in bad shape, and there seemed no chance that he would be able to play again during the series, even as a pinch hitter. McLean's knee, strained yesterday, was apparently well.

Tens of thousands of Giant supporters arrived last night with the team, others coming on early trains today. The Giants were early and kept to themselves at headquarters this morning. They apparently took their beating of yesterday to heart. Tesreau is broken-hearted by his overwhelming defeat. McGraw was silent and refused to talk. The whole club appeared to be fighting mad, while the Athletics, many of whom appeared in Shibe Park during the morning, were in the best of spirits, and declared they would win two straight games for the title.

"It doesn't matter who pitches," Mack said. "I wish I could start all my youngsters."

Summary: Home runs—Merkle. Three base hits—Oldring, Schafer. Two base hits—Burr (2), Burns. Sacrifice hits—Strunk. Struck out—By Bender, 8; By Demaree, 1. Base on balls—Off Bender 1; off Demaree 1. Stolen bases—Collins. Hit by pitched ball—Murray. Passed ball—McLean.

ORPHANAGE OPENED
PALMI, Calabria, Oct. 10.—The American Red Cross orphanage, erected from funds collected in the United States at the time of the Messina earthquake, has been formally opened here.

Italian "Spy" Fever—Arrest 6 Foreigners

CHIASSO, Oct. 10.—The Italians have caught the "spy fever." In the past week, in the vicinity of the Italian Lakes where they are constructing new fortifications near the Swiss frontier, three Americans, two Germans, and an Englishman were arrested for taking photographs. After considerable difficulty they convinced the authorities that they were harmless tourists, and were released.

Bulletins of News

Hot from the wire up to 3:30 p. m.

THE WEATHER

Fair tonight and Saturday. Light northeast winds.

Campi and Burns Finish Their Training
DENVER, Colo., Oct. 10.—Eddie Campi and Frankie Burns today claimed to be in great shape for their fight tonight at the State Athletic Club arena. Both boys finished training yesterday. They will weigh in at 118 pounds this afternoon. The State A. C. will try to arrange a match between the winner of tonight's bout and Johnny Coulon.

Arkansas Makes Plan To Relieve State Deficit
LITTLE ROCK, Ark., Oct. 10.—To discuss ways and means for relieving the deficit in the state's general revenue funds, a score of the most prominent bankers of Arkansas met here today in response to a call by Governor George W. Hayes. The state will follow the suggestions made today as to the best manner of borrowing \$250,000 at a low rate of interest to carry the state over until taxes begin to come in next year.

Passenger Carrying Plane Flies 4700 Feet High
NEW YORK, Oct. 10.—J. R. Hill and J. Guy Gilpatrick attained the altitude of 4700 feet over the Statue of Liberty in a monoplane yesterday afternoon. This is a record for a passenger-carrying flight hereabouts. The machine was lost in the fog for twenty minutes.

Representatives of 14,000 Banks in "Get-away"
BOSTON, Oct. 10.—Today was get-away day for the representatives of more than 14,000 banks of the United States who have been attending the thirty-ninth annual convention of the American Bankers' Association here since Monday. The business sessions closed yesterday when the convention adjourned sine die. Today was spent in sight-seeing and an excursion to Nantasket Beach.

Poincare Refuses To Attend Bull Fight
MADRID, Oct. 10.—President Raymond Poincare of France, who is now visiting King Alfonso at Madrid, declined yesterday to attend a gala bull fight which had been arranged in celebration of the Franco-Spanish festivities. President Poincare is a noted lover of animals.

Would Make "Discovery Day" National Holiday
WASHINGTON, Oct. 10.—Representative Golden today introduced a resolution, naming October 12 "Discovery Day," and setting it aside as a national holiday.

WATER COMPANY WANTS TO RAISE ITS WATER RATES

Application was made to the State Railroad Commission yesterday afternoon by the Huntington Beach Water Company for authority to increase its water rates and to make new rules and regulations. Fifty-three water rates are mentioned in the application, all of which the company desires to increase. The assertion is made that the company is not paying dividends.

SOLONS RECEIVED PLAY BY PLAY REPORT IN HOUSE

WASHINGTON, Oct. 10.—A United Press wire from Shibe Park, Philadelphia, was "cut in" at the House of Representatives today. The members received the returns, play by play, of the game at the Philadelphia park. Representative McDermott of Illinois, a former telegraph operator, received, and Representative Mann of Illinois, was the announcer.

No Cause to Worry
"My brushes are all worn out," sighed the futurist painter. "and I have no money to buy new ones." "Never mind," his wife replied. "Take the broom."

Dobkins
"What kind of a fellow is Dobkins?" "He can tell you how to adopt a national system of currency that would pay off the national debt, but he can't raise the price of his grocery bill."

ARGUMENTS IN CLEVELAND IS TO BUILD MODEL VILLAGE

Judge Parker Declares Sulzer As Unfit Mentally or Morally For Office Under Progressive Charter Will Build Homes For Her Workingmen

SCORES HIM FOR HIDING BEHIND WOMAN'S SKIRTS

Herrick Says Court Prejudiced Against Sulzer—Bids Them Remember Their Oaths

ALBANY, Oct. 10.—Morally and mentally unfit to hold the office of governor was Judge Alton Parker's characterization of Gov. Sulzer in his speech for the prosecution in the Sulzer impeachment trial. Judge Parker denounced Governor Sulzer for his alleged attempt to create the impression that his wife bought the stocks for which he used gubernatorial campaign contributions and flayed him for "hiding behind a woman."

Attorney Herrick for Governor Sulzer declared that he knew the impeachment court was unfriendly to the governor but demanded that the members keep their oaths.

A verdict in the case is expected Monday. Judge Parker in his address against Sulzer reviewed the history of the concealed contributions, seeking to show that the money was contributed in the belief it would be expended in the campaign. He applied this argument to the "larceny" charge.

Louis Marshall in arguing for Sulzer centered about the larceny charge. Mr. Marshall said no larceny existed because the money came into Sulzer's hands legally and that the charge of perjury was groundless because the law never required an affidavit to a campaign statement.

Each of the eight articles of impeachment will be voted upon separately. It is expected, and there now being fifty-seven members of the court in attendance, thirty-eight ayes will be the necessary two-thirds majority to convict.

EILER MUSIC COMPANY * OPENS STORE HERE

The Eiler Music Company, owners of a chain of music stores, that extends to most of the principal cities of the coast, have just put in a stock of pianos and player pianos in this city, at 297 North Sycamore street and announce that they will be ready for business beginning with tomorrow.

They will open with an introductory special sale during which all instruments will be offered at reduced prices.

The Eiler company is one of the largest and best known piano houses on the coast and they will make a strong bid for a share of the piano business of this locality.

GOING TO RAISE HOGS AND CATTLE AT STOCKTON

E. A. and William Wakeham, brothers, have bought a ranch four miles from Stockton, and will leave on Monday to make their homes upon it. They are going to raise hogs and cattle. E. A. Wakeham has given up his lease at Fallbrook on the O'Neill ranch.

NOME STORM WIPED OUT SECOND TOWN

Soloman With Population of 300, Demolished—No Lives Were Lost

NOME, Alaska, Oct. 10.—The storm that devastated Nome wiped the town of Soloman entirely off the map. Not a building of any sort in the settlement, which had a population of 300, remained standing after the gale. It is reported all the inhabitants escaped with their lives.

ASHEVILLE HOME FOR BRYANS

ASHEVILLE, N. C., Oct. 10.—So anxious is Asheville to have Secretary of State Bryan and Mrs. Bryan as residents, that local business men have offered of the exclusive sections on the one condition that he spend a portion of the year here. Whether the Bryans will accept is not yet known.

STANDS BY TARIFF BILL
WASHINGTON, Oct. 10.—Efforts to repeal the 5 per cent tariff discount provision on imports in American ships has met a setback with the return to the city of Representative Underwood, chairman of the Ways and Means Committee, original champion of the clause.

After Joseph W. Polk, solicitor of the state department, who advocates repeal of the provision, had talked to Mr. Underwood, he announced that there would be no developments in the matter for several days.

GAMBOA DYKE BLOWN UP AT 2 O'CLOCK TODAY

Giant Explosion Joins Waters of Pacific to Atlantic's Flow in Uncle Sam's Panama Canal

PANAMA, Oct. 10.—Gamboa Dyke was dynamited today on a signal flashed at 2 o'clock p. m., President Wilson pushing a button in Washington, the blowing up of the dyke practically completing the canal. Engineer Goethals received President Wilson's signal and immediately raised his hand signaling for the blast that resulted in a rush of water into Culebra Cut, and signaled the nearby consumption of the greatest engineering feat the world has known. When the dyke was blown today by many dynamite mines, the last strip of earth and rock between the Atlantic and Pacific oceans in the stretch of the Panama canal, was blasted out. Col. Goethals has made more than good his promise that water would be turned into the canal before 1914. At all times Col. Goethals has been the master mind dominating the great work. Backed and heartily supported by a loyal constituency of engineers and experts in every branch of the work, he laughed at temporary obstacles. Every slide of earth that filled up the canal only stirred him to greater efforts, and he has made good his promise to the world, beating the best estimates by months.

Extent of Undertaking
The two French companies which undertook to construct the canal excavated more than 78,700,000 cubic yards, but the American engineers found only about 30,000,000 of this work available. This means that more than 183,000,000 cubic yards have been taken out.

The Total Cost
The total cost of the canal is approximately \$33,500,000. The cost of maintaining it is yet to be determined. Certainly it will require a small army to defend it. The lowest military estimate is 8000 men, while the highest is 25,000. The second number represents the total strength of the American army at a time just prior to the Hispano-American war. It is certain that the extreme minimum of 8000 men will be necessary to form anything like an adequate defense garrison for the great isthmian water way.

Dredge Fleet Through Locks
PANAMA, Oct. 10.—Fourteen dredges went through successfully the canal Gatun locks yesterday with Philippe Bunau-Varilla aboard the first.

Officials of the central division held a farewell banquet last night. The division will be disbanded tomorrow today and 400 employees will be dismissed.

Convicted After Many Escapes
From Law—Six Months In Penitentiary

NEW YORK, Oct. 10.—Daniel S. Tolman, "king of the loan sharks," was convicted yesterday in the court of special sessions, of usury and sentenced to serve six months in the penitentiary. His counsel, Lewis Carruthers, gave notice of intention to appeal, but pending the appeal Tolman was sent to the Tombs to await transfer to Blackwell's island.

This is the first time Tolman has ever been convicted in a court in this city, although many prosecutions have been launched against him. Recently he was convicted in New Jersey and warned to leave the state. On previous occasions, Tolman has escaped conviction because the prosecution was unable to connect him personally with usurious loans. Yesterday the personal conviction was established. The borrower paid \$15 for the use of \$10 for ninety days.

SOFIA, Bulgaria, Oct. 10.—The situation in the Balkans is bafflingly complicated. Constantinople, Athens and Belgrade speak of peace, but are preparing secretly for war. Turkey says the outlook is hopeful, yet its fleet has left the Dardanelles in the direction of Greece. Athens declares that peace is not threatened, yet the Grecian army and navy have been ordered to be ready for a conflict. A Kavala the Turks are advancing, while Dedeagatch has suddenly been occupied by international forces.

WOMAN'S HAND, CUT OFF AT WRIST, IS A GASTLY FIND

NEW YORK, Oct. 10.—A woman's hand severed at the wrist, found at St. George, Long Island, precipitated another police mystery today. Coroner Jackson believes that another murder similar to that of Anna Amuller and probably inspired by that tragedy, has been committed.

PREPAID MESSAGES PLAN
WASHINGTON, Oct. 10.—Plans for the prepayment from any point of origin in the United States of messages to be sent abroad, whether cable or wireless, were taken up yesterday at the office of Commissioner Chamberlain of the Commerce department's bureau of navigation.

HIGH HEELS CONDEMNED
WASHINGTON, Oct. 10.—High heels worn by women were condemned by a meeting of 1000 trainmen at the Union station "gym" here. The trainmen at a "safety first" rally declared that nearly all station accidents are caused by French heels and other fashionable feminine footwear.

ORANGES FOR AUSTRALIA
SACRAMENTO, Oct. 10.—A few oranges are now being picked for the Australian trade. It is not expected that many oranges will be shipped to the east until after November 1.

POMONA'S AUTOMOBILES
POMONA, Oct. 10.—According to records just made public in this city through the county assessor's office, this city has now 683 automobiles on the assessment roll of the county. In 1912 there were 648, while in 1902 there were only five in Pomona.

PRINCE KATSURA DEAD TODAY AFTER A LONG ILLNESS
TOKIO, Oct. 10.—Prince Katsura, former premier and personal adviser to two Japanese emperors, died today after a long illness.

GOVERNMENT WORRIED TODAY

Capture of Torreon Causing Anxiety at Washington—Strategic Point

HUERTA HURRYING FORCE TO SCENE OF ACTION

Alarm Felt In City of Mexico Over Unguarded Condition of the Capital

WASHINGTON, Oct. 10.—The capture of Torreon by Mexican rebels has produced more or less anxiety among administration officials here. Torreon is one of the most important cities in northern Mexico, not so much because of its size, but because of the number of railroads, four, running in and out of the city.

Torreon Strategic Point
War department officials say the city is a strategic point, that it is the key to the defense and communication with Mexico City from the north.

General Huerta, according to reports which reached the capital last night, is rushing a small force of troops from the Vera Cruz district to the country between Torreon and Mexico City with the intention of checking the rebels if they make an effort to push on to Mexico City.

Anxiety In Mexico City
MEXICO CITY, Oct. 10.—Foreigners, who until now have felt safe in the capital, were filled with misgivings today by reason of the dispatch of all available troops to the north with the intention, according to the war department, of immediately retaking Torreon.

Only a few troops remain in the capital. The mounted police, who always have inspired a feeling of surety, have been replaced by new men.

AFTER TRUANT SOLONS
WASHINGTON, Oct. 10.—In a last desperate effort to compel the attendance of congressmen, the house yesterday ordered the arrest of every member absent without permission, and those out of the city were notified by telegraph that warrants were outstanding against them.

SAME DRESS SUIT, 12 YEARS
LONDON, Oct. 10.—Clubdom received a shock when Sir George Alexander, England's famous actor-manager who has long been regarded the best dressed man in London, confessed that he had worn the same "dress suit" for twelve years. In an article in a weekly paper he declared that the subject of fashion scarcely interested him at all, neither on the stage or off. "The impression that dress makes either the man or the actor is erroneous," he says. "Perfection in dress has absolutely no relation to the success of a play."

LOST ARM AND LOVER
LONDON, Oct. 10.—The loss of a girl's arm is no justification for her lover jilting her, decided the jury in a breach of promise case at Mold, Flintshire. After she had become engaged to Howard Pugh, Miss Amy Jones met with an accident which resulted in the amputation of her right arm, whereupon Pugh promptly threw her over. When the case came to trial he set up the defense that a one-armed woman could not possibly be a success as a working man's wife. Miss Jones was given a verdict of \$125 and costs.

Attended Meeting
P. C. Whitley and W. I. Stewart of the Commercial Department of the Polytechnic High School attended a meeting of accountants at Los Angeles last night, which was followed by a lecture on Accounting and Auditing. The lecture was followed by discussions in which some of the leading certified public accountants of the United States took part.

NEW OIL BOOM HOPED
BAKERSFIELD, Oct. 10.—News of the discovery of natural gas at a depth of 250 to 400 feet on the northeast quarter of section 6, 20-30, twelve miles east of Bakersfield and about the same distance from the Kern River oil field, gives this city the hope of a possible new oil boom.

BEACHEY EXONERATED
BATH, N. Y., Oct. 10.—Lincoln Beachey, whose aeroplane killed one girl and critically injured another when he returned to aviation Tuesday, has been relieved of legal responsibility for the accident. "Accidental death," was the verdict of the coroner's jury, which made no recommendation.

SICILY EARTHQUAKE
MESSINA, Sicily, Oct. 10.—A strong earthquake shock lasting twelve seconds occurred here yesterday and caused considerable panic.

GOING TO TRY TO KEEP DISEASED DUCKS OFF MARKET

Market Hunters Will Ship Sick
Fowls Is the Opinion
of Ferguson

Arrest of Poachers at Tulare
Lake; Clarke Investigates
the Situation

Local duck hunters have heard no
reports of the presence among ducks
in this county of the mysterious dis-
ease that has been killing thousands
of wild ducks in the San Joaquin val-
ley.

To prevent market hunters from
shipping ducks infected with the dis-
ease that has prevailed in parts of Cal-
ifornia for the past four years, to San
Francisco and other markets, the State
Fish and Game Commission will in all
probability take the matter up with the
State Board of Health, according to a
statement by A. D. Ferguson, district
fish and game commissioner at Fresno.

The duck season does not open until
October 15, but already market hunt-
ers have been caught with diseased
ducks in their possession.

The question of shipping diseased
ducks was brought to the attention of

Ferguson most forcefully when he re-
ceived an official report from Deputies
E. W. Smalley and Tipton Mathews of
Lemoore of the arrest of three Jan-
anese market hunters. Before Justice
Light of Lemoore the three men plead-
ed guilty and escaped with a fine of
\$25 each. According to the testimony
the men were taken into custody at
Tulare lake on Sunday, where they had
captured the diseased ducks on a line
and pumped lead into the birds in or-
der to make officials believe the fowls
had been shot. The men were arrest-
ed on the charge of having ducks in
their possession out of season.

"The state faces a critical situation,"
said Ferguson at Fresno in regard to
the disease. "The Fish and Game Com-
mission has no authority to stop mar-
ket hunters from shipping the diseased
birds, which are fat and in good con-
dition; we can only prosecute a hunt-
er in case he takes more than the lim-
it."

"Tulare and Buena Vista lakes seem
to be the two places where the dis-
eased ducks are most prevalent. Sev-
eral weeks ago a member of the com-
mission stood on the shores of Buena
Vista lake in Kern county and counted
2,000 sick ducks. The number is equal-
ly as great on Tulare lake."

"Experiments have not proved as
yet whether or not the disease can be
communicated to human beings. If it
is, steps to prevent the marketing of
the fowls should be taken at once. It
is probable that the commission will
take the matter up with the State
Board of Health."

"This disease was first called to my
attention four years ago. At that time
scientists of the University of Califor-
nia undertook to determine its nature,
but to no avail. The United States De-
partment of Agriculture made an in-
vestigation and finally determined that
the disease was coccidiosis, a duck
cholera."

"The result of the experiments did
not prove satisfactory to the commis-
sion, however, and for this reason
Frank S. Clarke of the University of
California has been sent to Tulare lake
to carry out a series of experiments.
Clarke has been working on the case
for the past two weeks and we are in
hopes that he will make some discov-
ery before the opening of the duck sea-
son."

AVOID CATARRH

Breathe Hyomei—It Medicates
the Air You Breathe and
Instantly Relieves

Why continue to suffer from cat-
arrh, stopped up head, husky voice,
and other troubles of the breathing
organs, when there is an absolutely
certain, scientific remedy at hand.

Hyomei is the remedy. It is a
pleasant, harmless and antiseptic
medication which you breathe through
a small inhaler. Breathing a few
times daily through the inhaler
charges the air with this germ-killing
antiseptic. Catarrhal discharges,
sniffles, foul breath, watery eyes and
the formation of crusts in the nose
are promptly relieved by this medi-
cated air.

It is guaranteed by Rowley Drug
Co. to do it, or money back.
A complete Hyomei outfit, consist-
ing of a strong, hard rubber pocket
inhaler and a bottle of Hyomei costs
only \$1.00, and extra bottles, if af-
terwards needed, are only 50 cents each.
Druggists everywhere sell Hyomei.

Use Hyomei for bronchitis, coughs
and cold in the head, husky voice,
croup of infants, and any inflamma-
tory disease of the breathing organs.

Kindness to Hogs
If the practice is followed of talk-
ing to the hogs, and moving around
among them, they can be handled
very easily.

Dr. A. T. Vance, osteopath, offices
114 1/2 East Fourth St. Sunset 239.

Santa Ana Painless Dentists, 102 1/2
East Fourth St. Main 253.

For Cane-Seated Chairs
When cane-seated chairs begin to
sag an excellent plan is to turn the
chairs upside down and scour the un-
der part of the seat with soapuds.
Then rinse with boiling water and
let dry in the open air, if possible.
This saves quite a little sum and
makes the seat of the chair almost
like new cane.

MUSCATS ARE SHORT MORE THAN 40 PER CENT

Sultanas and Thompsons Are
About 37 Per Cent Less
Than Last Year

Misleading Circular Sent Out
By Armsby Company,
Says Madison

FRESNO, Oct. 10.—Careful investi-
gation and replies from nearly 4000
growers show the Muscat raisin crop
to be short more than 40 per cent and
Thompson and Sultanas short 37 per
cent.

This was the statement made yester-
day by James Madison, manager of
the Associated Raisin Company. The
Associated has been conducting an
investigation for some time to de-
termine the raisin shortage, and cards
were sent out to all growers to be
filled in and returned.

In connection with his statement
regarding crop shortage, Madison is
sued another statement showing what
means some of the outside packers
are taking to discredit the ability of
the Associated to handle this crop.

"In a circular issued by J. K. Arms-
by, under date of September 26, it is
stated that on September 1 there
were 20,000 tons of old raisins on
hand," he said. "This at least, is 2500
tons more than the raisins that were
actually on hand."

They also state that the 1913 crop
will be 85,000 tons. From the best
information obtainable, that we now
have in hand, there will not be pro-
duced in this state, 70,000 tons of
raisins of all descriptions, from the
crop of 1913. They are leading the
trade to believe that there will be
from 15,000 to 20,000 more tons of
raisins than the actual output.

"They further state that there will
be from 5000 to 10,000 tons of sec-
ond crop, if they are cured. Now
everybody knows that the second crop
this year is extremely small, and with
the good prices the wineries are of-
fering, there will be no second crop
cured."

"We call the growers' attention to
these misleading statements which
are not to their interest, and we feel
confident in saying that we will un-
doubtedly be able to market all the
raisins of the 1913 crop as well as
what is produced this season. All we
ask is that every grower live up to
his contract and not strengthen the
hand of the opposition."

AMUSEMENTS

Auditorium

The Auditorium Theater has had a
strong week. The crowd has been
one of the usual large and apprecia-
tive audiences that are in attendance.
The change in ownership of the build-
ing has made no change in the policy
of this house. "The best to be ob-
tained all the time."

The picture now on the curtain "In
the Coils of the Python," holds the
interest of every one who sees it. It
is also an excellent portrayal of wild
animal hunting.

A. G. Schlusman, billed as the Santa
Ana boy, has an entertaining musi-
cal act.
"The Swede" and his pretty brun-
ette companion are a team which
acts with ease and their clean wit is
pleasing.

The act that captivates the house is
the "Newsboy Trio." The boys' jolly
stepping, their twinkling eyes and
good singing brings down the house
and they are forced to respond to an
encore.

—Call and let us show you our new
1914 model 85 note player piano for
\$388. at Eller's piano sale, opposite
Postoffice.

Santa Ana Painless Dentists, 102 1/2
East Fourth St. Main 253.

Awnings for Hen Houses
It is a good plan to have awnings
or hoods of cheap muslin or boards
to go over the windows of the hen
house in summer to keep out the
sun, and thus keep the house much
cooler. But it is not advisable to
have those awnings up during the
winter, as the sunlight is needed in
the houses to purify them.

Accounted For
"Yes," said a grocer to a housewife,
"I'll admit that there is considerable
water in the butter I sold you, but it
just came through the western floods,
lady."

Results From Roughage
Good results are had from feeding
shredded fodder for roughage.

The People's Forum

Brief communications will be pub-
lished under this head, provided they
be signed by the author, or the au-
thor's name be sent to the Editor as
an evidence of good faith. However,
the Editor shall be the sole judge as
to the propriety of publishing any
communications, and the Register as-
sumes no responsibility for any views
that may be expressed in this column.

Santa Ana, Cal., Oct. 8, 1913.
Editor Register:—Will Rev. D. Scar-
borough, through the columns of the
Register, kindly harmonize his state-
ment in last Sunday's sermon, which
was published in the Register, that
"God breathed into man's nostrils the
breath of immortality," with his text,
"For God so loved the world that he
gave His only begotten Son, that who-
soever believed on him should not per-
ish but have everlasting life." (John
3:16), and "The soul that sinneth, it
shall die" (Eze. 18; 4, 20)?

How can a soul, that has immor-
tality, perish or die?

Also consider 1 Tim. 6: 15, 16,
"Which in his times he shall show, who
is the Blessed and only Potentate, the
King of Kings and Lord of Lords; who
only hath immortality, dwelling in the
light which no man can approach un-
to; whom no man hath seen nor can
see; to whom be honour and power
everlasting; Amen!" And 2 Tim. 1:10,
"But is now made manifest by the ap-
pearing of our Savior Jesus Christ,
who hath abolished death, and hath
brought life and immortality to light
through the Gospel."

WE EXPECT the
Lion's Share of the trade
of the dressy young men of this
town, this season.

If we don't get it, the fault will be with our advertising. For we have certainly got the clothes—

The snappiest suits; the swellest overcoats, that have ever been shown anywhere by anybody.

No freak styles—we don't handle that kind of clothes.

Not the grotesque sort that soon get tiresome and make a man wonder why he ever bought them.

But every suit and overcoat in absolutely good taste; with style that "grows" on a man and makes a fine impression as long as he wears the clothes.

Hand-tailoring throughout; and every fabric guaranteed all-wool.

Suits, \$15, \$18, \$20, \$25

Overcoats, \$12.50 to \$25

Sweater Coats and Ruff Necks in Shaker and Jumbo weaves in all shades of Gray, Cardinal and Navy, strictly all wool at \$4.00, \$5.00, \$6.00, \$7.00. Boys' Ruff Necks, \$1.50 to \$3.00.

Men's and Boys' Furnishings

MALLORY HATS

A new shipment of Mallory Velours arrived today. Come in tomorrow and select yours. Colors, black, gray, brown and green, \$3.50 to \$5.00.

Fall Underwear

We are now prepared to show you the best in woolen or heavy weight cotton underwear. Prices, per suit, \$1.00 to \$3.00.

MEN'S SHIRTS

All our new fall Savoy Shirts are now in. Prices are \$1.50 and \$2.00. Elgin Shirts, \$1.00.

Men's Fine Neckwear

Our fall stock of Keiser and Cheney Cravats are here. They are priced at 50c to \$1.

ORANGE CLUB BACKING PLAY

Sunday School Class Gave An
Enjoyable Halloween
Party Last Night

(By Staff Correspondent.)

ORANGE, Oct. 10.—The Vernon-Willard Stock Company last evening opened a three night engagement at Campbell Opera House under the auspices of the Orange Commercial Club.

The company gave a pleasing presentation of "Caliph of Baghdad."

The cast was well balanced and was strong in the various parts of the delightful little comedy. The leading man, Jack Burnham, who was four years with David Morosco, was exceptionally good.

The second play this evening will be "The Soldier's Sweetheart," which is described as a very good play.

The J. O. C. class of the Methodist Sunday school was entertained last evening at a delightful Halloween party given by Miss Lydia Killifer on North Glassell street.

The decorations all favored of the Halloween season, consisting chiefly of witches, bats and such spooky suggestions of Halloween.

The evening was spent in progressive games and at a late hour a delicious menu of peaches, whipped cream, cake, cocoa and apples.

Those present were: Misses Jones, Wilda Claypool, Lois Park, Catherine Spencer, Chloe Jones, Esther Jones, Estaline Hall, Ruth Hull, Hazel Thompson, Fonda Roberts, Mrs. F. V. Pruitt and Miss Killifer.

Miss Odella Cosendal of Saginaw, Mich., arrived here yesterday for a visit of several weeks with the C. A. Fiene family.

Eugene Wilson of Los Angeles was a business caller in this city today.

J. A. Barger, formerly of Orange, has purchased a ranch near San Jacinto, adjoining the ranches of his two sons, Vern Barger and Rolfe Barger.

Mrs. A. L. Bush returned to her home in Long Beach this morning after a five weeks' visit in Orange and McPherson with relatives and friends.

Mrs. F. W. Honey and daughter Clarinda accompanied her home for a short visit.

Mrs. C. N. Weaver of La Canada is making a visit with friends in Orange.

Main Street, Opposite City Hall

Santa Ana, Cal.

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots.

How to Remove Easily

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of ointment—double strength from E. J. Atter's Drug Store, and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength ointment as this is the prescription sold under guarantee of money back if it fails to remove freckles.

—Our big sale opens Saturday, Oct. 11, 1913, at 307 North Sycamore street, just opposite the postoffice, Santa Ana, and as an advertising medium for a few days we are going to sell high grade, fully guaranteed, new standard make pianos and player pianos at absolute wholesale prices on terms to suit you. Come in and tell us your troubles, at Eiler's tremendous sale, 307 North Sycamore, Santa Ana.

THE FAMILY COUGH MEDICINE
In every home there should be a bottle of Dr. King's New Discovery, ready for immediate use when any member of the family contracts a cold or a cough. Prompt use will stop the spread of sickness. S. A. Stid, of Mason, Mich., writes: "My whole family depends upon Dr. King's New Discovery as the best cough and cold medicine in the world. Two 50c bottles cured me of pneumonia." Thousands of other families have been equally benefited and depend entirely upon Dr. King's New Discovery to cure their coughs, colds, throat and lung troubles. Every dose helps. Price 50c and \$1.00. All druggists. H. E. Buckner & Co., Philadelphia or St. Louis.

Stylish glasses make you appear dignified and prosperous. We make them. Dr. K. A. Loersch.

PARCELS POST

Attention has frequently been called to the fact that as yet ranchers on the rural routes running from the Santa Ana post office do not appreciate the advantages offered by the parcels post system. There is no reason why they should not use the parcels post system not only to get goods delivered to them by Santa Ana merchants, but to market many of their own products. Of course, most ranchers raise crops in bulk, and packages would not figure at all when it comes to the delivery of the big crops.

Gradually the ranchers are learning the advantage of getting goods delivered to them from Santa Ana merchants. It beats any mail order to eastern concerns. The Santa Ana merchant stands back of the sale, and any person who has had dealings with Santa Ana merchants know that they are usually courteous and fair. An order sent by mail to a Santa Ana merchant has the guarantee of the firm back of it just as though the article was bought in person by the rancher and the personal assurance of the merchant given with the purchase that the goods are as represented.

Recently there was brought into the Register office a clipping from the advertising pages of the London Graphic, as a sample of the way the parcels post is used in England. There is a department in the advertising pages marked "Marketing by Post." Under that heading there are advertised for sale and delivery by post the following articles: Apples, plums, tomatoes, chickens, ducks, eggs, peaches, pears, green figs, grapes, grouse, dressed poultry, flowers.

GREAT IS CO-OPERATION

California Cultivator: Nothing succeeds like success. On the other hand we believe there are times when success is so great that competitors scheme to turn it to failure. A case in point is furnished by the recently formed California Cured Fruit Association. Organized since the new year began it has marketed hundreds of thousands of dollars worth of fruit and it has been a strong factor in the advance of prices. Now other interests, seeing the encroachment on their preserves, desire its downfall. The most effective means of breaking up any co-operative organization is to create dissatisfaction among its members, and the quickest way to do that is to offer more than the market will stand where fruit is sold entirely on its merits.

In a recent editorial we mentioned a similar situation in the Walnut Growers Association, some of whose members are listening to the siren's song. The walnut association, however, is older than the cured fruit growers' organization, and its members have not forgotten the success of its dealings in other years. Unless the cured fruit people are level-headed enough to realize the necessity of standing by their association they will soon find themselves back in the good old days when the buyers manipulated the markets—for whose benefit? From a conversation recently held with Mr. J. P. Dargitz, manager of the association, we take it that as a rule the members are standing pat. There never was a time when co-operation showed such a drawing to its ranks of men of ability as the present. We believe these men not only have financial ability, but thoroughgoing honesty. This should inspire confidence and the heartiest support of the growers.

One remarkable feature is the magnitude of the business which may be conducted in a truly co-operative organization with practically no capital. Regarding the cured fruit association a banker with knowledge of its history and operations remarked that within the nine months from the date of its organization, without a dollar of capital, it passed hundreds of thousands of dollars through its institution, and every dollar of it because of the confidence of the growers in the management. The management is worthy of their confidence, and we hope its members will continue to realize it, not because of any particular benefit to any particular members, but because of the great principles of co-operation which need just such examples to aid in placing the California fruit industry on a strong foundation.

SOMETHING TO EAT

Dining room of Hotel Rochester, Orange, is open. Turkey dinner next Sunday.

Smart styles for young men

YOUNG men can't afford to dress in any but the best style; and the best style is something that only the most expert designers can produce; style in clothes is an art, not simply a word. It's the real art of style in them that makes Hart Schaffner & Marx clothes so much preferred. You'll find that no made-to-measure garments, whatever you pay for them, will give you the lasting satisfaction that's to be had in these goods.

It is such clothing as this of Hart Schaffner & Marx that makes made-to-order clothes unnecessary; they're better than most made-to-order in every way; fabrics, tailoring, style, fit. You'll see it for yourself here.

See what value \$25 will give you; we have them at less, and more.

SPECIAL WASHINGTON LETTER

By Burton K. Standish.

WASHINGTON, Oct. 8.—Imagine yourself riding on a train. Then imagine a little more and ask if the engineer is of sound mind; affected with heart trouble, colorblindness; a subject of epilepsy, paresis or some other sinister malady that may cause him wrongly to read signals or drop from his seat at the throttle. He is responsible for your safety. Imagine some more and place yourself aboard an electric car, steamship or in a cross-country automobile. Transfer your imaginings to the motorman, pilot or chauffeur or whatever the man in charge of your safety may be. Is he mentally and physically sound?

This subject is now before the U. S. Public Health Service. Surgeon General Rupert Blue will soon ask congress to frame a law placing the power to examine annually the custodians of public safety in interstate traffic in the hands of the Health Service. The danger of wrecks on railroads, steamships and electric cars and of automobile is expected to be materially minimized if the plan is carried out.

A rigid annual examination would be required. It would include tests for defective eyesight, defective hearing, mental diseases and organic heart trouble. The holding of yearly physical tests of every man who runs a train or steamship or electric car and who is responsible for the lives of hundreds of persons each day will, it is believed tend to eliminate one of the principal causes of wrecks. Officers of the Public Health Service are of the conviction that physical unfitness is responsible for more wrecks than most people realize, particularly in the disasters caused by engineers running heedlessly past signals.

Colorblindness is responsible for more wrecks than have ever been attributed to this defect, the surgeons

believe. People suffer from this ailment and little suspect it. Reds, greens and browns look almost alike to people who are colorblind.

Tests for hearing is also important. Detection of unusual sounds, the peculiar thump of a broken flange or other dangerous conditions of rapidly revolving machinery has often prevented wrecks. The test for organic heart trouble would prevent many disasters. Public Health surgeons declare. Cases are on record where engineers have died suddenly at the throttle while the train went crashing on with its load of human freight. Mental troubles are also held responsible for many wrecks. The effect of "past alcoholism" is often the cause of mental disorders. Paresis—the slow loss of mental faculties—bringing with it epilepsy, the sudden fainting fit, or other disorders that might cause the engineer, pilot or motorman to send his human cargo to death and injury despite signals.

The cry for "Safety First" not only applies to modern steel equipment for railroads, efficient and safe signal systems and proper time schedules, but to the man at the throttle, the wheel, or the controller, Public Health surgeons assert.

Every time the House Banking and Currency Committee holds a meeting, Representative Byrnes of South Carolina, a Democrat, puts himself on the back and congratulates himself that he is no longer a member of that particular committee. For several years Byrnes was a banking committee senior, ranking well up toward the top of the list and in line prospectively, for the chairmanship. Because of the Democratic bickering and internal dissension on the committee, Byrnes now says he is glad he retired last March.

Why Byrnes gave up a senior position on the banking committee, which has charge of currency legislation, is an open secret. The banking committee is one of the most important in the house, at that. Byrnes was interested in the work and served prominently as a member of the Pujo money trust investigation committee. But he is a lawyer, a young one, ambitious and

prominent in his state. He successfully defended "Beauty" Beach, charged with assaulting Mrs. Beach, who was formerly Mrs. Havemeyer, with a penknife.

Figuring that he might help his personal fortunes by remaining on the banking committee during the publicity given currency legislation, Byrnes believes the banking committee will be a "dead one," almost a political morgue, after the currency bill is passed in the house. So he resigned from the committee in the hope of being of more service in other committee work.

Representative Cullop is a budding "oil magnate." He and friends "at home" are owners of an oil well in Ohio which Cullop thinks is going to make all hands rich, maybe. During the hottest time in Cullop's fight for publicity of indorsements of federal bench appointees, Cullop received a telegram that his oil well was spouting like a house afire—a gusher, it was reported. Cullop made a flying trip to Ohio, a week-end journey. He threw a few shirts and socks into a suit case and "beat it" for the first train to Ohio. Now Cullop is confiding to a few intimate friends that the gushing reports were somewhat exaggerated.

WOMEN WHO GET DIZZY

Every woman who is troubled with fainting and dizzy spells, headache, weakness, debility, constipation or kidney troubles should use Electric Bitters. They give relief when nothing else will, improve the health, adding strength and vigor from the first dose. Mrs. Laura Gaines, of Avoca, La., says: "Four doctors had given me up and my children and all my friends were looking for me to die, when my son insisted that I use Electric Bitters. I did so, and they have done me a world of good." Just try them. 50c and \$1.00 at all druggists or by mail, H. E. Bucklen & Co., Philadelphia or St. Louis.

—Why deprive your loved ones of the joys and comforts of music when you can buy high grade instruments at such sacrificing prices and on your own terms, at Eller's advertising sale.

ANNOUNCEMENT

—Dr. J. W. Shaul will be in his Los Angeles office forenoon; Santa Ana office, 2 to 5 p. m., and by appointment.

Never so well and happy since wearing our comfort glasses, says a prominent woman. Dr. K. A. Loersch, Eye and Ear Specialist.

—Mr. Horatio Cogswell, University of Southern California College of Music, has resumed his class in voice, and will receive pupils every Thursday afternoon, at the home of Mrs. Padgham, 208 East Ninth St., Santa Ana. Italian method. Home 260, Sunset 874W.

—"He who hesitates is lost." Come early while our stock is complete and you have a large assortment to select from. Buy a piano today; pay for it when you can. Eller's piano sale.

Dressed poultry on sale every day. We deliver anywhere in the city. Richelieu Market, 431 West Fourth St. Phone: Home, 632; Sunset 85.

Afternoon session opening at 1:30 o'clock:
Duet (violin and piano)—Kenneth and Donna Horton.
Reading—Miss Winifred Roberts.
Piano Solo—Miss Hill.
Address—Mrs. A. L. Hamilton, Pasadena.
Address, School Laws—R. P. Mitchell.
Address, "Home Work in Connection With the School"—J. A. Cranston.

Attend Convention

Mr. and Mrs. Frank McElree left this morning for Huntington Park and Los Angeles, going by auto. They took Mr. and Mrs. John McElree of Hickey street, parents of Mr. McElree, to Huntington Park, where they will spend the week end with Prof. Reeder.
Mr. and Mrs. Frank McElree then went on to Los Angeles, where Mrs. McElree attended the Methodist district missionary convention, where children's work was the topic for the afternoon. Mrs. McElree has recently taken up children's work in the first Methodist church of this city and wished to glean new ideas from the convention addresses.

We shall look for you at our reception-musical next Monday evening at the Conservatory studios, at 8 p.m. These affairs are very informal. They are for the purpose of getting better acquainted and of having you learn more about our work.

An exceptionally good program of voice, piano and violin numbers, besides readings by Miss Birdena Henry, head of our new department of Oratory, Dramatic and Physical Expression, has been prepared by the faculty.

Come and bring your friends. No admission charged.
504 1/2 N. Main St. Sunset 214.

DON'T BE A MUSHROOM

In the October American Magazine William Johnson says that it is probably your own fault if you are all the time catching colds or having indigestion or headaches. He goes on to say:

"Nature intends every human being to be strong and wise. Most disease is either ignorance or carelessness. Babies—even the babies of sickly, ignorant, incompetent parents—are given on a pretty good start by Nature. If children get sickly, it is nearly always the fault of the persons taking care of them. If when they grow up they remain unhealthy, it is largely their own fault."

"But," you protest, "I can't help it if I inherit a weak stomach." Oh, yes, you can. Did you ever systematically study your stomach? If you were going to be a lawyer you would study law. If you were going to be a stenographer you would study shorthand. If you are going to be healthy, study health."

"Most people know more about the care of their clothes than they do about the care of their health. Study your diet. Find out what the effects of the various foods are. Ask yourself if you are getting enough exercise. Keep tabs until you find what it is that disagrees with you. Leave strictly alone the food and the drinks—that your stomach scolds you about."

"Make up your mind to be healthy. Go to the three best doctors, the three that Nature has provided free for everybody—Fresh Air, Fresh Water, and Sunlight. Get as much of all three whenever you can."

"A mushroom can lie in a cellar, but don't be a mushroom. If you eat right, drink lots of water, sleep in fresh air and get out in the sunshine, you'll soon forget to be sick."

"And perfect health is a long stride toward perfect happiness."

Altar Society

The Altar Society of St. Joseph's church had one of the most pleasant of meetings yesterday afternoon at the home of Mrs. Robert R. Shafer, twenty-five ladies being present. Mrs. Shafer was assisted in making the afternoon delightful by Mrs. C. V. Davis of Santa Ana and Mrs. V. R. Rossiter of Orange. The principal occupation of the ladies was sewing on articles for the use of the church. When time for refreshments rolled around delectable sandwiches of the sort known by the not very classic name of "hot dog" were served with coffee, pickles and pumpkin pie. A welcome guest during the collation was Father Eumelen.
The next meeting will be held at the Sycamore street home of Mrs. A. J. Small, who will be assisted by Mrs. Elmer Biggs.

PARLIAMENTARIANS MEET

Ladies Evolve Plan For Practice of Parliamentary Usage—Splendid Outlook

The first meeting of the Ebell Parliamentary Section was held yesterday afternoon at the home of the leader, Mrs. W. L. Grubb. A large attendance marked the initial meeting of the season and a most enjoyable afternoon was spent. The ladies held their deliberations in the pleasant porch sitting room, a most delightful place for the evolving of plans and the studying of parliamentary usage.

The meeting was resolved into an assembly which soon went into committee of the whole for the discussion of plans for the coming year's work. The committee rising later, reported the adoption of the suggestion that the section organize itself into a convention to last throughout the year for the purpose of putting parliamentary rules into practice. Subjects to be discussed before the convention will be absorbing and leading topics of the day.

At the next meeting of the section delegates will be elected, the organization of the convention will be perfected, and the topic for discussion will be the World's Peace Movement. Everything will be conducted with the strictest adherence to parliamentary usage. With such a beginning, the section promises to have a most valuable season. The ladies are enthusiastic over the outlook and are anticipating a most delightful year of study.

Roosevelt P.-T. Association

The Parent-Teacher Association of Roosevelt school will meet in the kindergarten room on Tuesday afternoon, Oct. 14, at 3:30 o'clock. All mothers are invited to be present.

Held Meeting in Park

The Woman's Committee held an enjoyable and profitable meeting yesterday afternoon in Birch Park. A goodly number were in attendance and all were well entertained with the short but excellent program that had been prepared by the chairman, Mrs. Frank J. Barnes. Several musical selections by Mrs. J. Millbank, Mr. R. L. Smith, and Mr. B. Umatham were worthy of special mention.

Following the program, the ladies served home-made cake and ice cream from the sale of which they realized a generous sum for their treasury. The next meeting will be held at the home of Mrs. W. M. Bunker, 1219 West Third street, Thursday afternoon, Oct. 23, at 2:30 o'clock. All are invited to be present.

Pleasant Club Meeting

The N. M. U. Club met yesterday with Miss Ethel Baker, South Broadway, with nine members present. One visitor, Miss Ruth Larson, was welcome.

The house decorations were of pink cosmos and Cecil Bruner roses. Needle work and social chat passed the time. Light refreshments were served.

The next meeting of the club will be held with Miss Rena Stafford at her home on North Main street.

Civics Club Delegates

The executive board of the Civics Club held a meeting yesterday afternoon at which the following delegates were elected to attend the County Federated Clubs convention to be held at Huntington Beach Oct. 22: Mrs. F. L. Austin, Mrs. Geo. S. Smith, Mrs. Chas. S. Shaw, alternates, Mrs. F. J. Rogers, Mrs. Dr. Paul, Mrs. P. L. Tople.

Plans were discussed for a further clean-up movement to be held in the near future. A meeting of the Civics Club will be called for the first Saturday in November.

Michigan Party Here

New arrivals in Santa Ana with hope and intent of becoming permanent residents are Mr. and Mrs. J. R. Fouch and their son, H. E. Fouch, and their daughter, Mrs. Ada Kilmer. Mr. J. R. Fouch is an uncle of Geo. S. Thacker of this city and Mr. H. E. Fouch and Mrs. Kilmer are his cousins. The party hails from Michigan, and are temporarily domiciled in Geo. E. Wright's new flats.

Travel Club

The Young Ladies' Travel Club met Wednesday afternoon at the home of Mrs. Henry Rutherford, continuing the pleasant resume of summer out-

Woman's Fads and Fancies

NEW YORK, Oct. 10.—If Lucy Lockett had lost her pocketbook today and Sally Flisher had found it I doubt very much if Lucy would ever have seen it again so delectable are the many conceits in the purse line now tempting femininity.

The pouch bag is the favorite of the moment and its name is adequate description. It comes in pin, seal, morocco or navy blue and black moire. It is mounted on a gilt frame and lined with white satin and an inch wide gros-grain ribbon swings it from its proud possessor's arm. Some of them boast a tiny mirror so attached that it pops obligingly like a jack in the box when the bag is opened. This is almost equal to letting the cat out of the bag. Yes? Others are well stocked with all the appurtenances of the first aids to beauty. They seem to lack only an electric vibrator to set up a complete beauty shop at short notice. Many of the bags have Lilliputian watches set in one side and some have their pouche ends finished with a smart silk tassel.

A charmingly quaint bag of taffeta, tulle or moire comes in black or dark blue embroidered at intervals with little nosegays of colored silk flowers. They also swing from inch wide gros-grain ribbons with tiny jeweled slides and the metal clasps that hold tight their treasure trove are gayly jeweled also. Beaded bags are smart again. Elaborate designs in steel, bronze or jet beads are being picked out on moire backgrounds. Moire pouches with monograms traced in the beads are very lovely.

For wear with the new plain black velvet hats whose only trimming is a single feather, alluring hat pins have come to a head. Neither as large nor as ornate as the atrocities of former years they are artistic and conservative in their form and coloring. Flat ovals and disks of solid enamel sometimes centered with a pearl vie with oblong and round crystal head-

Mrs. Olive Lopez

TEACHER OF SPANISH
Classes every evening at her home, 329 West Tenth street. Terms in class, \$3.00 per month, in advance.

The Human Eye is a wonder. Most eyes are over used sooner or later. Probably NOW is the time for you to commence wearing glasses.

Dr. K. A. Loerch
EYESIGHT SPECIALIST
116 East Fourth Street

ed plus for milady's favor. Tiny jeweled hairpins for catching your veil to your hair at the sides come in an endless variety of designs and combinations. The veils they catch of finest mesh with elaborate borders of lace tracery are indeed beauty enhancers. Lovely women should arise and take them to her heart and face after the horrible lace figured veils of last season whose sprawling designs made the fairest cheek appear disfigured with repulsive birthmarks.

In taupe silk mesh or flesh and white the new veillings are particularly becoming.

Since the fair maids and matrons insist on capping themselves abroad as well as at home cap designers have been put to much ado for original effects. They have sought to wrest the caps from the fair heads of all nations and now have invaded the cloister to emerge with a nun's headpiece that proves as lovely on a sinner as on a saint. Evolved of heavy Venetian lace it bands the head low on the forehead and over the crown of the head close down around under the chin with such realistic mimicry of effect that one is tempted to advise the demurely coiffed wearer to "Get thee to a nunnery" instead of to the theatre where such headresses now nightly shine. Directly opposite in its appeal and effect is the seductive turban of tulle which twists around the modern hour's head leaving her crown of hair au naturel. A dainty jeweled lattice cap a la Juliet has a quivering jeweled butterfly poised in front and a close fitting little Dutch cap of white lace with wired lace wings fluttering over the ears is pretty enough for a Duchess. Caps are certainly written in capitals this season.

Taking it from top to toe the newest high shoes are buttoned, with lowers of patent or dull gunmetal kid and uppers of suiting to match your tailor made. For dress the low shoes of bronze and patent leather still cling to their sparkling buckles and Colonial cut. Dainty pumps in all the elusive and bewildering shades of your newest evening gowns are certainly fit for fairy feet and also fit some human ones.

Separate sleeves of pleated chiffon come already made up in the shops to attach to your long shoulder caps and smarten up your last season's passe frock. Pleated net by the yard for filling in the open front of your frock is another first aid to a gown of yesterday. Overshirts or tunics of chiffon or tulle will also do wonders and if you will take all the drapery out of the front of your skirt and pull it around to the rear the vintage of your dress cannot be detected by a connoisseur.

—Miss Carolyn Haughton will present her pupils in private recital Saturday afternoon, Oct. 11th at 4 o'clock, in the home of Mrs. A. N. Cox, 1517 North Main street. All parents and friends interested are cordially invited to be present.

AT THE COURTHOUSE

STARTS FIGHT
FOR DAUGHTER

Los Angeles Man Says Girl is
Held at Balboa Against
Her Will

Mrs. Mary J. Neill is Sued by
John P. Kurth on a Note
For \$1750

Matthew C. Meiklejohn of 417 West
Forty-second street, Los Angeles,
wants his daughter to live with him,
and he intends to have her. He has
called on the superior court to see
him through.

He asserts that Martha C. Meikle-
john of Balboa has the girl, Elizabeth,
aged 16, in her possession and is re-
straining her from returning to her
father.

Today Judge Thomas signed a writ
of habeas corpus, by which Martha

C. Meiklejohn of Balboa is ordered to
produce the girl in the superior court
tomorrow morning at 9:30 o'clock.

The petition was filed this morning
by Attorneys I. B. Dockweiler and R.
B. Murphy of Los Angeles. The story
as told by the legal document is that
Elizabeth's mother died many years
ago, and up to Oct. 3 she lived with
her father in Los Angeles. On Oct. 3
she went to Balboa to visit Martha
C. Meiklejohn, whose relationship to
the other parties in the case is not
stated. The girl did not return home,
and her father went to Balboa to see
what was the matter. He states that
he found the girl in charge of Martha
C., who refused to allow her to go
with her father.

The allegation is set forth that
Meiklejohn is not only father of the
girl, but he is also her guardian, hav-
ing been appointed as such in Los
Angeles on July 22, 1907.

The parent declares the girl is held
at Balboa without her consent.

Sues on a Note

Today Attorneys Williams & Ru-
tan brought suit for John P. Kurth
against Mrs. Mary J. Neill of Santa
Ana, owner of Neill's hall. Suit is on
a note for \$1750.

Case Dismissed

Today on the motion of the district
attorney, Judge West dismissed the
felony charge against E. J. Catterlin,
an Oregon promoter. Catterlin trad-
ed stock in a Columbia River com-
pany to Charles Newcomb of Anaheim
for property in Los Angeles worth
\$40,000. After the trade, Newcomb
found that the stock instead of be-
ing worth \$1 a share was worth only
a few cents. He sued Catterlin and
recovered his property on a fraud
charge. Delay after delay occurred.
Catterlin was sick. Witnesses left
the state. Newcomb had his prop-
erty back, and the prosecution found
itself in difficulties. Finally it was
found best to dismiss the case. Cat-
terlin was represented by Attorney
Clyde Bishop.

Pleads Not Guilty

Joe Carrisosa of Anaheim today
pleaded guilty to selling beer near
Myford in violation of the Wyllie lo-
cal option law, and his trial was set
for Nov. 16.

Final Decree

A final decree of divorce was grant-
ed today by Judge Thomas to John
W. Tovatt and against Clara Tovatt.

In a New Demonstrator

Fred Ross of Wm. F. Lutz Company
is today driving around a brand new
Studebaker "6." The machine is a
beauty and runs like a top. Its appear-
ance upon the streets attracted con-
siderable attention among lovers of
good automobiles.

Hall, Saturday, Oct. 11. Everybody
invited.

Love

Kisses are love's assets, quarrels its
liabilities.—Helen Rowland.

IN THE JUSTICE COURT

CARELESSNESS
ON HIS PART

Meredith Case Dropped—Dis-
turber Dixon Pays a
Fine of \$30

W. R. Meredith, formerly a pool-
room keeper at Garden Grove, may
count himself lucky that he does not
have to stand trial in the superior
court on a charge of giving a no-fund
check. His preliminary examination
this morning resulted in dropping the
case.

Meredith gave a \$35 check to the
Santa Ana Wholesale Grocery Co.
There was only \$15 in the Garden
Grove bank to meet the check. Mer-
edith left town, and failed to make a
deposit. He has since paid the com-
pany, and Justice Cox was convinced
that there was an oversight in the
case.

For Disturbance

E. C. Dixon today paid a fine of \$30
for disturbing the peace at Los Ala-
mitos. It seems that he was playing
cards at Los Alamitos last night when
a fellow stole \$6 from him. Onlook-
ers saw the act, and told Dixon.
Dixon got a bottle of booze and a
razor and went out searching for the
man. Deputy Sheriff Stanfield and
Constable Rice ended the search by
locking him up.

Twenty Years From Now

First Woman—Well, the election is
over and the same old crowd seems
to have won again.

Second Woman—Yes, and it's a
shame, too. It looks to me as if there
ought to be some law passed com-
pelling the girls out in the outlying
residential districts to take an hour
off and cast their votes.

Who Was He?

"Father," said a boy of twelve
"who was Shylock?" "What?" ex-
claimed his father, "have I sent you
to Sunday school for the last six or
seven years, only to have you ask me
who Shylock was? Shame on you!
Get your Bible and find out this min-
ute!" —Mother's Magazine.

Surely Impossible

A wag the other day denied that
John Bunyan was the author of "The
Pilgrim's Progress." Being vehement-
ly contradicted, "Nay," said he, "I
question even if he contributed to the
work; for it is impossible that a bun-
ion could contribute to any pilgrim's
progress."

Difference

To men a man pretends he is a
good fellow; to women what a bad
man he is.

VERDI HONORED BY PILGRIMS GALORE CLEVELAND HOT MAYORALTY FIGHT UNCLE SAM NOW GUARDING BIRDS "WIRELESS EYE" SCIENTIFIC WONDER

Music Lovers From Over the World Gather in Milan for Verdi Centenary

MILAN, Italy, Oct. 10.—Italy's practically all-year celebration of the centenary of the birth of Verdi culminated here today when the celebration which has been in progress all summer at Parma, Verdi's birthplace, was temporarily moved to Milan, where the great musician is buried.

The city today is filled with music lovers from practically every country in the world. The great majority came in "pilgrimages" consisting of musical societies and other Verdi enthusiasts who joined the "pilgrims" en route. Italy alone was today represented here by more than 3,000 of those "pilgrimages," which represent all of the principal communities of the country, and all of which have previously held Verdi celebrations in their respective communities.

The throngs which filled the city also include practically all of the leading grand opera artists of the world. A goodly part of them for the past month have been singing in the presentation of the Verdi operas which were given at the Parma celebration in their chronological order. The exercises here today closed with the dedication of a magnificent monument to Verdi. Its dedication was at the moment when the "Sala Verdi," the most pretentious concert hall in Italy, was being formally opened and when more than 100 monuments of Verdi were being unveiled in as many cities and towns in Italy.

Campaign Rivals the Johnson Wars—Mayor Will Rule Every City Department

CLEVELAND, Ohio, Oct. 10.—What promises to be one of the hottest mayoral campaigns ever witnessed in Cleveland, even rivaling the famous Tom L. Johnson "election wars," began in earnest today with the opening of ten meetings all over the city by the Democratic organization, which is solidly backing Mayor Newton D. Baker. Speeches will be made in the tents every evening from tonight until election. Mayor Baker himself will make from two to four speeches in as many tents every evening. The Republicans will open up their oratorical batteries in a few days.

Considerable speculation is rife among politicians as to the outcome of the contest since it will be the first municipal election in which the non-partisan ballot will be used. No primaries were held this year, the candidates getting their names on the ballot by petitions with no party designations.

The successful candidate will take office under the new city charter, which is declared to be the most progressive ever adopted by any city in the United States, and the "last word" in home rule for cities. The mayor is given direct control over almost every city department. He and the twenty-six councilmen are the only elective city officials.

TRUE CITIZENS ARE REDLANDS WOMEN

45 Per Cent of Vote Cast in the Late "Dry" Election Was Cast by the Women

REDLANDS, Oct. 10.—That Redlands women believe in exercising their franchise, is shown by a table compiled by City Clerk Thomas, which shows that 45 per cent of the votes cast at the recent liquor election were by women. The registration shows about 42 per cent women. Of a total vote of 2655 cast in the election 1132 were women.

INAUGURAL CEREMONY SET FOR SATURDAY

CHINO, Oct. 9.—The regular inaugural ceremony and exercises of the California George Junior Republic at Chino will take place Saturday, Oct. 11, 7:30 p. m. The election of officers in the government building following which there will be an inaugural party at the new gymnasium and club room. Friends and those interested in the work of the Junior Republic are cordially invited to attend the inaugural service and the party following.

Dr. George Sumner of Claremont, president of the Republic board of trustees and chief justice of the supreme court will administer the oath. The ceremony proper will take place in the government building following which there will be an inaugural party at the new gymnasium and club room. Friends and those interested in the work of the Junior Republic are cordially invited to attend the inaugural service and the party following.

Uniform Federal Laws Protect Migratory Birds—Closed Seasons Are Fixed

WASHINGTON, Oct. 9.—Migratory birds have come into their own, for Uncle Sam has put into effect a set of uniform federal laws protecting the many species of the feathered tribe which threaten to become extinct through the ravages of the Nimrods.

Congress passed a law last March authorizing the department of agriculture to adopt regulations and fix a closed season for certain species of birds needing federal protection. These regulations were duly drafted. Effective this month the regulations are, briefly, as follows:

Trap shooting prohibited; shooting between sunset and sunrise punishable by heavy fines; suspension of hunting indefinitely on the Ohio, Mississippi and Missouri rivers, allowing waterfowl a safe highway from their winter feeding grounds in the lower Mississippi valley to their nesting grounds in the Dakotas and Minnesota; limiting hunting seasons to a maximum of three and one-half months in the several states; seasons being according to latitude and times of migration; providing separate seasons for waterfowl, rail, shorebirds and woodcock, complete protection for five years for the smaller shore birds and other species which have become greatly reduced in numbers.

The new law also protects the robin, the lark and other birds in the few states where they suffer from an open season.

SPEAKER CLARK IS INJURED IN WRECK

Suffers From Cuts and Bruises Resulting From Railroad Train Crash

WASHINGTON, Oct. 10.—Speaker Champ Clark was confined to his bed last night as the result of a painful injury received in a railroad wreck near Pittsburg on his journey home from Wheeling, W. Va., last night. The speaker is suffering from several cuts on his forehead and sprained back. The crash, which occurred through a broken coupling pin, threw him violently in his berth.

TO MAKE CHINAWARE FROM DESERT CLAY

Factory May Build in Long Beach to Utilize China Clay From Mojave Desert

LONG BEACH, Oct. 10.—Another industry has received the partial sanction of the manufacturing committee of the Chamber of Commerce and will probably be located in this city within a short time. It is a chinaware factory, the product being manufactured from china clay found in parts of the Mojave desert.

The proposition was explained to the Chamber of Commerce yesterday by Theodore Dittell, general manager of the Pacific China Manufacturing Company, of which Otto Steinen, head of a barber supply house in Los Angeles, is a director.

The company will employ fifty men at once and eventually from 600 to 700 workmen will be on its payrolls.

FORTY THOUSAND

Home seekers, it is estimated are now pouring into Los Angeles. Five hundred dollars each means twenty million dollars fresh capital, new blood, new capital to be absorbed by the surrounding country.

SANTA ANA

has never before had so many substantial inducements to offer, isn't that true? Some one is going to buy my home, 2220 North Main St., at a bargain. 9 rooms, cellar, large screen porch, good barn or garage, lot 80 ft. front, 280 ft. deep, variety of fruit and shrubbery and the largest redwood tree in Southern California.

I must go to Templeton where we are developing an orchard of pears, apples, cherries, apricots, walnuts, and almonds.

Will Also Be Priceless As Life Saver to Those Who Go to the Sea in Ships

SAN FRANCISCO, Oct. 9.—If the "wireless eye" does all that M. C. Blum says it will do, navigation is on the eve of just another revolution as it experienced with the discovery of the wireless telegraph, in the opinion of seafaring men who have examined the "eye" with which its inventor, S. Spitz, is experimenting at Vallejo. Blum and W. E. Rode are financing the invention and have taken out twenty-seven patents on it.

The instrument, which works only at night, reflects on a mirror a moving picture of everything within a radius of several miles. It receives its impression from a web of wires erected on a tall mast. It is useless by daylight, however, for the reason that the wires register only the "stygian rays."

"The navigator of a ship so equipped could see on the darkest night the surface of the ocean all about him," said Blum. "He could observe other ships approach or the proximity of rocks, shoals or icebergs. A coast guard could see an enemy's scouts approaching long before the scouts had found what they were seeking."

"During a recent test at Vallejo, the observer saw in the mirror the ships on the river, the railroad trains passing up and down the valley, people walking about and even the sentries pacing their beats on the island," Spitz was formerly a wireless expert on Mare Island.

SPURT SHOWN BY THE TEAM

Santa Ana High Football Players Are Going to San Diego

(By Vern Smith.)
It is pretty hard to believe that a football team can improve about 200 per cent in four days, but that is just what the Santa Ana squad has done in these last few days of practice. Last evening's practice brought out one of the hardest scrimmages that has been seen on the Lincoln grounds for a long time. The players just seemed to get together and tear things to pieces, and for a while it looked like the last quarter of last year's game between Long Beach and Santa Ana.

Last Monday night's workout, while it was fair for the first scrimmage of the year, showed lack of team work and looseness all through the line and the back field. It was the first night of scrimmage and it is hard to expect very much of a team the first time, but the outlook wasn't very bright.

Last night's sudden burst of speed and team work was a great surprise to everyone, because there have been no signs of anything like that this year. While there was not much individual stalling, several of the fellows on both the second and first teams showed the onlookers what they could do in the line of playing football.

In saying that the team has improved about 200 per cent since last Monday's practice it doesn't mean that it is perfect by a large margin. There is room for a great improvement yet. It is so early in the season and the team has such a good start there is no reason why Santa Ana cannot pull off some glorious old games between now and Thanksgiving. Up to the present this year's team is in a great deal better form than last year's eleven, but they have not the weight. Now if they can make this loss of weight up by speed, their chances of coming out on top this year are great.

Today the Santa Ana eleven leaves for San Diego to buck the first team of the year, the San Diego Army and Navy Academy. This is the fast little team that slipped it over on Escondido last Saturday by the score of 6 to 0. Now if all the dope turns out all right Santa Ana has a decent chance of giving them the little end of the score. But one cannot tell; the Army and Navy might spring a surprise on the fellows and walk away with a few touchdowns. It is a fair bet that the dope is right but it is hard to tell. After watching last night's performance it looks as though Santa Ana is in the right shape and will deliver the goods. Results of the halves will be posted at the Dragon and Taylor Bros.

The following will compose the team to San Diego: Warren, Eaton, Selph, Whitson, Hughes, Burkett, Timmons, Anderson, "Big" Spud Morrison, "Little" Spud Morrison, Robinson, Holzgrafe and Walters.

Fall and Winter

CUSTOM TAILORING ANNOUNCEMENT

We desire to announce that our entire stock of fall and winter Suitings are now ready for your inspection. Our line includes all the most desirable of the new fabrics, both in the standard weaves and latest novelties.

We Show the Largest Assortment of Men's Suitings Ever Shown in Orange County

In our new location we have added a complete equipment for Nickle Plating Automobiles. We take off your brass trimmings, nickle plate them and put them on your car again at lowest charge that good work can be done.

Auto Specialty Co., 416 N. Sycamore

POTASH FROM SEA KELP BEING MADE

First Manufactured in North America Is Turned Out at Long Beach

LONG BEACH, Oct. 10.—The first potash manufactured from ocean kelp on the North American continent was produced yesterday at the works of the American Potash Company in the industrial district in this city.

The first shipments of the product, valued at \$60 a ton, will be made to Los Angeles and vicinity shortly, following an examination of the plant by members of the Los Angeles Chamber of Commerce and Chamber of Mines.

Hundreds of tons of sea kelp, heretofore thought valueless, is being dried by the local company, preparatory to its grinding and manufacture into fertilizer.

Santa Ana Painless Dentists, 102 1/2 East Fourth St. Main 253.

CONVINCING ARGUMENTS

There are such convincing arguments in favor of every owner of property making a will and naming a Trust Company, rather than an individual as Executor, that, in justice to your heirs, you should give them serious consideration.

Orange County Savings and Trust Company
SAVINGS-COMMERCIAL-TRUST
SANTA ANA

NEW BRICK ON MAIN STREET

Jackman to Build Structure to
Be Occupied by Crystal
Cleaning Co.

Permit for \$12,000 Issued to
Cover the Surgeon
Apartments

Work has commenced on another
brick building in the business section
of Santa Ana. If the pace that has
been set the last month continues,
the coming winter will find Santa
Ana building up even more rapidly
than it has during the last two or
three years.

The new building is being built by
Contractor A. C. Black for S. J. Jack-
man on Main street between Second
and Third streets, adjoining Harper's
garage. The cost will be about \$40,000.
The building will be occupied by
the Crystal Cleaning Co., a firm that
has made good with Santa Ana pat-
rons. The company's business has in-
creased rapidly by reason of the en-
ergy put into it and by reason of fair
treatment given the public. A lot of
the most modern machinery used in
cleaning wearable articles is to be
installed in the new building.

Framework Up
Another Main street building in
which considerable advancement has
been made during the last week is
the garage on North Main street be-
tween Fifth and Sixth streets being
built by Contractor James O'Brien on
Carroll Bros. lot. The framework is
now up and Hell's brick masons are
at work at the rear of the building.
The building has a cement floor. It
will be occupied as a garage by T. W.
Neeley.

Considerable Doing
Main street between Second and
Fourth has witnessed a number of
changes recently. The Register
moved into its new building, and the
room formerly occupied by it in the
Odd Fellows building is now used by
the Santa Ana Produce Co. The room
across the street formerly used by the
produce company is now filled with a
brand new stock of dry goods and
shoes by the enterprising new firm
Taylor's Dry Goods store.

The Bell Theater, closed a short
time ago by Dr. Roberts, has been
opened up again, and is drawing
crowds.

The Old Men's Rest, which was on
Jackman's lot, has been moved, and
work begun on the new building.
These two blocks will have a big
improvement probably this winter.
Smith, owner of the Glenwood, is go-
ing to move it back, face it on Third
street, and put up a substantial brick
building at the corner of Third and
Main.

Finishing Up
As rapidly as possible the grounds
of the new \$225,000 polytechnic high
school are being put into shape. Af-
ter building always comes a period
of straightening up in which dirt must
be leveled, lawns planted and things
started to growing.

Building Permits
The past week made a good show-
ing in building permits. Among them
is the \$12,000 permit taken out for
the Spurgeon Realty Co. building at
the corner of Third and Sycamore.
The original permit was for a one-
story brick. After work was begun
it was decided to make it a two-story
building, modern apartments to oc-
cupy the second story.

PRINCE ERNST JOINS WIFE WHO IS AT HOME WITH MOTHER

BERLIN, Oct. 9.—Prince Ernst
August of Cumberland returned here
yesterday and rejoined his wife, the
Princess Victoria Louise, who has
been with the Empress, her mother
while recovering from her recent in-
disposition. The reunion of the
Prince and Princess is regarded here
as a definite sign that the recent trou-
ble over the succession to the throne
of the Duchy of Brunswick was
rather a controversy between the im-
perial chancellor, Dr. Von Bethmann
Hollweg, and his advisers, than be-
tween the Hohenzollern and Guelph
families.

SHERMAN STEVENS' VALENCIA ORANGE ORCHARD AT TUSTIN.

Year's Citrus History Shows Orange County Best Citrus Section

The Orange County orange crop for
next year is going to be excellent.

The income for Orange County or-
ange growers the last year was 50 to
100 per cent greater than the year pre-
vious. This county suffered but little
from frost, some sections not at all
and the frost-free oranges shipped each
season have nearly all come from
Orange County.

The year's citrus history has demon-
strated that Orange County is the very
best orange growing section in the
United States.

That sounds like an exaggerated
statement, at least it might sound that
way to one who does not know the
facts.

For months past a daily glance at
the citrus fruit auction reports showed
nearly all of the fruit marketed as
coming from Orange County.

Wonderful prices have been received
for Orange County oranges and lemons.
In fact, nearly all of the lemons obtain-
able by buyers in Southern California
have been Orange County lemons.

The Pacific Packer contains an in-
teresting estimate of next year's or-
ange crop as follows:

District	Cars
Los Angeles	2500
Riverside	2400
Pomona	1800
Ontario-Cucamonga	1800
Azusa-Glendale	1800
Tustin, El Modena-Santa Ana	2000
Covina	1700
Highlands	1200
Alhambra-Pasadena	1000
Sullerton	1100
Rialto	1000
Corona	950

ORANGE BANKS' PROSPERITY GREATEST IN THEIR HISTORY

Orange News: The total assets
and resources of the combined banks
and Building and Loan Association in
the city of Orange, those institutions
which are the barometer of the com-
munity's financial prosperity, are at
the present time larger than ever be-
fore in the history of the town. A
few figures will show that the finan-
cial condition of this community, as
indicated and reflected in its banks
and banking institutions, could
scarcely be improved upon in any
own of the size.

This total of assets and resources
in October 1913 are \$2,299,771. In
the same month last year they were
\$1,689,826, showing a gain during the
year of \$609,945.

The bank deposits, considered by
themselves, show a remarkable in-
crease for the past year. In October
1912 the combined deposits of the
banks were \$987,758 while in Oc-
tober 1913 they are \$1,308,778, a gain
of the year of \$321,020. Building
and Loan deposits, represented by
stock issued, show an increase of
\$4,970, being \$422,034 in October
1913 as against \$338,064 in October
1912.

An analysis of the individual in-
stitutions will show the following

MIDWINTER NUMBER LOS ANGELES TIMES

The forthcoming edition of the in-
comparable Midwinter Number of the
Los Angeles Times to be issued about
January 1, 1914, promises to surpass
all previous issues of this intensely
interesting and beautifully illustrated
magazine. It will graphically describe
and realistically picture the climatic
charms and scenic grandeur of hap-
py-sun-kissed Southern California, and
will be replete of the fragrance and
beauty which here abound throughout
the year.

The achievements of the splendid
men and women who are building an
empire in the Southwest will be de-
tailed, and the unprecedented devel-

Orange	900
Quarte-Monrovia	600
Whittier	500
Ventura County	500
Glendale	200
San Diego County	10
Anaheim	300
Moreno	250
San Fernando	100
Bloomington	150
Hemet	50
Other localities	500

Total carloads of oranges from
Southern California 23,585

From Northern California the esti-
mated output of oranges is as follows:
District—Cats.
Tulare County district 2300
Butte County 100
Sacramento-Placer and others 200

Total carloads 2500

Estimated output of lemons is as fol-
lows:

District	Cars
Los Angeles County	600
Orange County	500
Ventura County	400
Riverside County	400
San Bernardino County	300
San Barbara County	250
San Diego County	50
Northern district	150

Total 2650

Grand total fruits for the entire
state, cars 28,935
This estimate is for about a 60 per
cent crop of citrus fruit for all South-
ern California, including oranges and
lemons. All estimates made as early
as this are more or less a matter of
guess work.

FIND ACTIVITY UNDIMINISHED

California Development Board
Says State Made Good
Showing

The monthly bulletin of the Califor-
nia Development Board of San Fran-
cisco, for September, says:

This bulletin is based upon special
reports by reliable authorities in var-
ious counties covering nearly every
section of the state.

There is undiminished activity in
all lines of industry including develop-
ment in large and smaller tracts and
looking to their early marketing and
improvement. There is renewed ac-
tivity in mining, constructive develop-
ment work, manufacturing and trans-
portation. Though the year started
out rather inauspiciously, there will
be a good showing made on the whole
throughout the state, as there has
been, with few exceptions, no general
failure of any one crop.

The general manager of the Califor-
nia Fruit Growers' Exchange gives a
summary of the citrus crop for
1912-13, which he states represents 53
per cent of the shipment of the year
before. The F. O. B. returns to Califor-
nia on account of shortage created
by the frost equals 75 per cent of
the returns for 1911-12 and 50 to 70
per cent higher than the average F.
O. B. price during the preceding eight
years.

The shipments of fresh deciduous
fruits up to September 10th were
\$478 1/4 carloads against \$142 1/4 car-
loads in 1912.

The United States Reclamation Ser-
vice calls for bids for the construc-
tion of six miles of feed canal from
Big Stony Creek to East Park reser-
voir of the Orland project. This can-
al will increase the reservoir capacity
52,000 acre feet.

A government expert is inspecting
chrome and asbestos deposits in
Shasta county.

Twenty-one cents per pound has
been paid at Santa Rosa for this sea-
son's hops. More than 2000 bales
were sold.

A crop of figs near Reedley netted
the grower 70 tons and sold at \$15 a
ton.

A United States Geological Survey
credits California with the lead of the
United States in the production of
gold for 1912, her share being \$20,
000,000; Colorado coming second with
\$18,741,200, and Alaska third with
over \$17,000,000.

The sugar beet crop promises well
in all sections of the state. In San
Bernardino county one large crop is
reported as having sugar content of
22 per cent.

The cotton crop of Imperial county
as far as gathered is making a
good showing, and it is estimated
will be about 20,000 bales.

The lima bean crop, lately estimat-
ed at 96,000,000 pounds, from South-
ern counties, will now, it is thought,
exceed that amount.

The secretary of state reports the
auto vehicle registrations for the
month of August at 2628.

A Potpourri of News and Views

From the Los Angeles Financial Review

Loses Oil Lands

Oil lands valued at \$5,000,000, on which 100 wells have been drilled, and embracing 8000 acres under lease to the Chasler-Canfield Midway Oil Company, owned by the Santa Fe railway in the Midway district, Kern county, have been lost to the Santa Fe through a forfeiture of its lease. This is the declaration of Judge J. E. Prewett, of Placer county, in an opinion filed in the Superior Court at Bakersfield.

The opinion is a voluminous document, covering 51 typewritten pages, and sets forth the grounds for forfeiture as non-performance of the terms of the lease in the following particulars: Failure to do the required drilling and failure to pump completed wells; failure to conserve the oil in tanks instead of leaving it in sumps; failure to render a full accounting; failing to use diligence in patenting the land which was held under mineral locations, removing many thousand dollars worth of machinery from the land and using the land as headquarters for carrying on extensive development on adjoining land owned in fee by the railroad.

One of the most serious of the complaints made against the Santa Fe and sustained in the opinion is that the latter drilled wells on its own property close to the line of the leased land and thereby drained oil from leased territory. Throughout his opinion Judge Prewett expresses amazement that the Santa Fe should jeopardize a lease of such value when it terms could have been fulfilled at so small a relative cost. He mentions the fact that the Santa Fe has much and more to lose through an adverse decision than have the plaintiffs, and indicates that were it possible would gladly impose a judgment for substantial damages against the railroad instead of declaring its lease forfeited.

The land in question was located in 1900 by the present owners, J. W. Jameson, T. J. Jameson, T. J. Wrampelmeyer and I. Strassburger, who gave a thirty-year lease for an option to purchase to C. A. Carfield, E. L. Doherty and J. A. Chanslor. The latter sold the lease to the Santa Fe after doing sufficient development to prove the value of the land. In 1901 the lease was extended five years. About 100 wells have been drilled on the property. The suit, which was to quiet title, was filed in December, 1911, by Jameson and Wrampelmeyer. Strassburger filed a suit in intervention, and began another action against Jameson and Wrampelmeyer for partition. Strassburger's share is one quarter, and the others share equally in the remainder.

Jackling's Yacht Launched

The beautiful steam yacht *Cyprus*, being constructed for Daniel Cowan Jackling, the copper king, by the Seattle Construction Company, was launched on Wednesday. It is the greatest vessel of her type ever constructed on the Pacific Coast. She will be a twin screw oil-burning craft, 231 feet long, 28 feet beam and 15.6 feet depth, built according to Lloyd requirements. She will be equipped with two four-cylinder triple expansion engines, four Babcock & Wilcox boilers, and will be capable of maintaining a speed of 17 knots an hour. She is equipped with every modern convenience for comfort and safety. There will be twelve beautifully furnished staterooms, the dining room will be in carved teakwood, the music room in Circean walnut and the library in African mahogany. Her cost will be \$500,000. When the *Cyprus* is finished Mr. Jackling expects to take his first vacation in ten years, during which time he will be on the coast of California and Missouri in a Missouri college to the greatest authority on copper in the United States.

Rock Island Affairs

A dispatch from New York on Thursday quotes a director of the Chicago, Rock Island and Pacific railway thus:

"We are paying no attention to receivership talk in connection with Rock Island. The operating company will earn this year, pretty close to what it earned in last fiscal year, and will continue paying dividends so far as we can see at present. It is, of course, going to be hard sledding and Rock Island, as well as other roads in that territory, is badly in need of higher rates, which we are hopeful of securing. Until we cease paying dividends there need be no question of stability of the holding company."

Interest due November 1, on collateral trust 4s has, it is understood, already been provided for, thus putting that question over again until next May. Of security of interest payments on the operating company's bonds, there has been no question as the company has shown earnings of over five per cent on its \$75,000,000 capital stock.

More Postal Depositories

Five additional postoffices in California have been added to the Postal Savings depositories and will receive deposits on and after November 1. They are: Carpinteria, East San Diego, Hamilton City, Hermosa Beach, Saratoga; also Sonoma, Ariz., and Gardnerville, Nev. On date named all become Presidential offices, the postmasters being named by the President.

May Erect Tire Factory.

Citizens of Compton are considering a proposition from the Panama Rubber Company to build a factory in their city for the manufacture of auto tires. The requirements of the company are a donation of ten acres of ground for a site and subscriptions for \$25,000 of stock.

Ban on Russian Wheat

Mail advices from Liverpool say that the United Kingdom mills are under bond not to purchase Russian wheat unless on sample and analysis, which terms sellers refuse, so that until a new basis of trading is arrived at, trading in Russian wheat will be on a small scale.

Orange County Roads

Within the next year more money will be expended in improving the highway system of Orange County than ever before in the history of the county. The tax levy just made will provide \$70,000 for bettering the system. This in addition to the \$1,270,000 bonds voted for this purpose.

Board Lots on Exchange

The Board of Directors of the Los Angeles Stock Exchange has passed the following ruling regarding board lots:

Stocks with a par value of \$1 selling at \$1.50 and above the board lot shall be 100 shares and quotations will be made on that basis.

Invades New Field

What the Pacific Coast needs is money and not securities. This is evidenced by the many big improvements now under way at various points. There is a demand, an investment demand, which has been built up in the state for California securities, but there is no demand practically for securities of the other coast states.

To the end that an eastern demand for Pacific Coast securities be created, W. R. Staats, president, and other officers of his corporation have gone to Chicago, where they will remain a month in establishing a sales organization to cover New England and the Eastern and Middle West states. It is announced that the house will continue to deal exclusively in Pacific Coast securities, but believes that its business can be very much increased by extending the market for these securities.

While the Chicago branch of William R. Staats Company has been in existence for several months, conditions have not been auspicious for extending the investment business, with the result that a small force has been employed. With the return of better investment conditions a sufficient force will be employed to cover twelve or fifteen of the best investment states in the country, and this house will undoubtedly be able to furnish a much larger outlet for Pacific Coast securities than has been possible in the past. Now that the company is fast building up and the securities behind the improvements increasing rapidly in value it is believed that the time is opportune to spread over greater territory, as the securities recommend themselves to the investor and the market enlarged. California bond issues, security being equal, sell on a higher basis than those of almost any other state. This should render local bonds particularly attractive in the East and Middle West, especially at a period when every one is looking for higher returns.

Just About Prunes

Some time, some one will ask you where the first large prune orchard was planted in California. That you may give the correct answer tell the inquirer it was in 1871. In Leslie's Weekly Henry P. Dunne talks about prunes thus:

The first large prune orchard in California was planted in 1870, and today the state's crop is gathered from thousands of orchards, representing nearly 5,000,000 trees in the aggregate, and the production in California alone has reached the enormous figure of 200,000,000 pounds, to produce which 500,000,000 pounds of the fresh fruit must be gathered and dried, for it takes about two and a half pounds of fresh fruit to produce a pound of the dried or "cured" product. Some idea of California's prune crop may be arrived at if we imagine the individual prunes laid in a line with the ends closely touching. This line would stretch more than 220,000 miles, and if laid around the earth at the Equator, would circle it nine times with something to spare. Strung on a string less than one-half inch apart this chain would reach from the earth to the moon and part way back again; if piled in a solid mass 100 feet square, the pile would mount more than 650 feet in the air, a rival to the modern skyscraper.

Sue the State

Several million dollars are involved in an action instituted against the State of California to recover corporation license taxes paid under protest. In the cases at issue one brought by the Southern Pacific is to recover \$4700 and in the others Allis-Chalmers and American Steel and Wire. Should judgment be awarded it is the view of state officers that it would place the commonwealth in the position of being liable to all companies which have heretofore paid their taxes under protest, as several millions have been paid in corporation taxes. It is the first time in the state's history that a civil action to recover this tax has been instituted. The complaint is based on a decision of the State Supreme Court in which the corporation tax is held unconstitutional. Thirteen corporations which failed to pay the corporation license tax have secured a writ enjoining the state from proceeding farther in declaring them delinquent.

Developing Old Mine.

Two centuries ago Spaniards opened up and developed a lead-silver mine in what is now Arizona, near Patagonia. It was abandoned. In 1861 Americans found the mine and worked it until 1893. Then it was again abandoned. Now comes a mine operator from Butte, Montana, to once more reopen the property. Evidences of the crude mining operations of the Spanish pioneers still are seen at the mine, it is said. It appears they had secret smelters in the neighborhood of the mine. The Indians and pioneers of the district tell traditions of vast fortunes in silver said to have been smelted and concealed in the vicinity of the mine and never recovered.

Debt of Nations

This great big country of ours which is making such marvelous progress among the nations of the world has the smallest debt per capita of the greater nations, the amount being only \$11. Comparing these figures with those of other countries, France owes \$150 per capita, Great Britain \$87, Italy \$81, Spain \$96, Russia \$28 and Germany \$17.

Prune Crop Sold

California's prune crop is estimated at 90,000,000 pounds this year, while the Oregon crop is figured at 30,000,000 pounds. Of the first named the bulk of the expected crop has been sold, while about half of the Oregon crop has been sold. Prices are higher.

Apple Shippers Combine

Apple shipping associations in Idaho, Montana, Oregon and Washington are to form a combination similar to the Citrus Protective League of California. The meeting to organize will be held in connection with the National Apple Show in Spokane, Nov. 20.

English Oil Seed Enterprise

The Copra & Palm Oil Co. (Ltd.) has been formed at Bishopgate, London, England, with \$300,000 capital for the purpose of planting coco palms, soya beans, and other oil-bearing plants, and of working the products therefrom.

Reserve Agents Approved.

The First National Bank of Los Angeles and the National Park Bank of New York have been approved as reserve agents for the First National Bank of Riverbank, Cal.

"Pape's Diapiesin" Ends Stomach Misery, Indigestion in 5 Minutes

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache, you can get blessed relief in five minutes. Ask your pharmacist to show you the formula, plainly printed on these fifty-cent boxes of Pape's Diapiesin, then you will understand why dyspeptic troubles of all kinds must go, and why they relieve sour, out-of-order stomachs or indigestion in five minutes. "Pape's Diapiesin" is harmless; tastes like candy, though each dose will digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but, what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many "Pape's Diapiesin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gases, heartburn, sourness, dyspepsia, or any stomach misery.

Come now, this minute, and rid yourself of stomach trouble and indigestion in five minutes.

LOS ANGELES PRODUCE MARKET

The season's grape crop is rapidly being marketed, and, with the growing shortage in the local market, the price is being advanced. This was marked yesterday with the advance on the price of Black Moroccos, Malagas, Cornishons and Red Emperors to \$1.25 per lug. This is the highest price that has been charged for these varieties of grapes since the beginning of the season. There is, as yet, a fair supply of Muscats. The Tokays are growing less plentiful and the season is practically over for Concord grapes.

Peaches also are becoming less abundant and the quality is not so good as earlier in the season. Bartlett pears are in light supply and with the growing scarcity of other varieties of fresh fruits, apples are now coming to be a more important fruit in the local produce market.

Eggs are still firm, and there was no change in the prevailing jobbers' price of 45 cents yesterday.

Butter is being received in greater quantities than last week and the market is not so firm, although there has been no reduction in prices. Several times butter has been offered at less than the prevailing quotation on the Produce Exchange.

NOTICE OF SALE

Notice is hereby given that the Orange County Title Company, a corporation, will sell at public sale to the highest bidder for cash, gold coin of the United States, on the 18th day of October, 1913, at 10 o'clock a. m. at the office of said Orange County Title Company, 409 North Main street, City of Santa Ana, County of Orange, State of California, all that certain real estate, piece and parcel of land situated, being and being in the County of Kings, State of California, and described as follows, to-wit:

All of Section Twenty-five (25), except Lots One (1), Two (2), and Three (3), and except all that part of Lot Four (4) of said section included in the Southwest quarter (SW 1/4) of the Southwest quarter (SW 1/4) of said section 25, in Township 29 South, Range 22 East, M. D. B. & M., in Kings County, California. Said sale will be made subject to a certain first mortgage on said property to Gilbert F. Stevenson for the sum of \$10,000.00, dated February 16, 1910. Dated this 1st day of October, 1913. ORANGE COUNTY TITLE COMPANY, (Seal) F. W. MANGLER, Sec'y.

Makes Buildings 30 Degrees Cooler
On a hot summer day the temperature in the upper part of a building covered with J-M Asbestos Ready Roofing is from 15 to 30 degrees cooler than with any other roofing. The white asbestos surface reflects the heat instead of absorbing it and transmitting it to the rooms below. This is only one of the exclusive features of J-M ASBESTOS ROOFING. Besides making a building cooler in summer and warmer in winter, it is the only ready roofing that never needs painting. J-M Asbestos is also the only ready roofing that is fire-proof. Its FIRST COST IS THE ONLY COST. Write or call today for Samples and Booklet. See us for Beaver Board, Lumber, Mill Work, etc. Griffith Lumber Co. 1212

CUTTLE'S REPORT SUGGESTS METHOD OF GETTING MONEY

Much Good Work Done on Watershed
But More Trails and Firebreaks
Are Needed

Francis Cuttle of Riverside, the executive officer of the Tri-Counties Reforestation Committee, formed by representatives of Orange, San Bernardino and Riverside counties has completed a report to the committee upon the status of the fire protective work in the Santa Ana watershed, from which comes water used in irrigation in three counties.

The report follows in full:
Riverside, Cal., Oct. 9, 1913.
To the Tri-Counties Reforestation Committee.

Gentlemen:—As stated to you in the communication addressed to each member, the appropriation of \$5000 for the continuation of the work of constructing a fire protective system in the Angeles forest was granted by the state legislature by the passage of Assembly Bill No. 209, this appropriation being contingent upon an equal amount being set aside for the same purpose by the National Forest service, and as we already have written assurance from Mr. H. S. Graves that the service would set aside the \$5000 contingent upon a like appropriation being made by the state of California, this makes available \$10,000 for carrying on this work. The fire protective system, consisting of lanes and trails, is now pretty well constructed, excepting in the watershed of the Santa Ana river, itself, which is an area probably twelve miles long by one to one and a half miles wide, through approximately the center of which runs the Santa Ana river.

Of course it will not be possible to construct a complete fire protective system in the Santa Ana river with the amount of funds secured, as some portions of the \$10,000 must necessarily be spent on other portions of the Angeles forest. However, there is another source from which funds might be secured for the construction of roads and trails in the Santa Ana watershed.

I refer to the authority given the Secretary of Agriculture by the last appropriation act of congress which provides: "That hereafter an additional ten per centum of all moneys received from the National forests during each fiscal year shall be available at the end thereof to be expended by the Secretary of Agriculture for the construction and maintenance of roads and trails within the National forests in the states from which such profits are derived, but the Secretary of Agriculture may, whenever practicable in the construction and maintenance of such roads, secure the cooperation or aid of the proper state or territorial authorities in the furtherance of any system of highways of which such roads may be made a part."

This 10 per cent fund is in addition to the regular 25 per cent fund which goes to the several counties of the state in proportion to the area of national forest lands embraced within the respective counties and which is available for the construction of roads and the maintenance of schools in such manner as may be provided by the state legislature.

So far the county of San Bernardino has been the only one of the three counties that has had authority to receive any portion of the 25 per cent fund last referred to and the supervisors of that county have appropriated considerable sums of money out of that fund to assist in the protection of the watershed covered by congress has already recognized

the fact that 10 per cent, at least, of money earned by a national forest should be expended thereon, at the discretion of the Secretary of Agriculture, would it not be worth while to make a determined effort to convince the secretary that we should have 10 per cent of the income of the Angeles forest spent upon it. As the income of the Angeles forest is now \$21,000 per annum (the third largest in the state) it would give a fund of \$2100 per annum to be expended at the discretion of the Secretary of Agriculture.

I wish also to call the attention of this committee to what is known as the Weeks Law, which by the act of congress became a law March 1, 1911. It provides: "That the sum of \$200,000 is appropriated to enable the Secretary of Agriculture to co-operate with any state or group of states, when requested to do so, in the protection from fire of the forested watersheds of navigable streams. I am not going to suggest that we attempt to make any of the streams in which we are interested navigable streams but I am going to suggest that if the congress of the United States can appropriate and has appropriated money for the protection of water sheds of navigable streams, it should not be a difficult matter to secure an amendment to the act above referred to, or the passage of a new act, which will provide for the expenditure of money for the protection of water sheds of navigable streams where the waters from such streams are more valuable for domestic purposes and for irrigation than for water transportation.

It should not be a difficult matter to convince members of congress that on the Pacific Coast, particularly in the arid regions, water is worth from one hundred to one thousand or ten thousand times as much for the irrigation of our orchards and agriculture lands and for domestic purposes, as it is for water transportation. This same law also provides that there is appropriated for the fiscal year ending June 30, 1910, one million dollars and for each fiscal year thereafter a sum not to exceed two million dollars for use in the examination, survey and acquisition of lands located on the head waters of navigable streams or those which are being or which may be developed for navigable purposes. So here is a fund at this time amounting to two million dollars per annum, available for the acquisition of lands at the head or on the water sheds of navigable streams.

Would it not be a good idea for this committee to make an endeavor to have that law so amended as to make some of this money available for the acquisition of lands on the water sheds of navigable streams where it can be shown that the waters of such streams are many times more valuable for other purposes than for water transportation. It might not require a very great expenditure of money at this time to secure the few pieces of land on the south slope of the San Bernardino mountains still in private hands, and it is not likely that these lands will ever be worth less money than they are today. Probably the Brookings company, having finished their logging operations in the San Bernardino mountains, might be more willing to dispose of their cut over lands than they were at the time this matter was taken up before congress has been about sixty incipient

fires in the Angeles forest during the past long dry season, over forty of these fires being in the watershed in which we are interested.

Possibly largely due to the fact that the water shed has been thoroughly patrolled by watchmen, none of these fires have done any damage to our water shed so that it is evidently worth while to have extra men on during the summer time to take every precaution possible to prevent fires and to be on the ground to promptly extinguish any which may get a start.

In this connection it has been suggested that it would be an excellent idea for the supervisors of the county to have a space cleared (say 8 feet wide) on each side of all county roads through the water sheds where there is any brush or debris that might easily catch fire from the throwing down of a lighted match or cigar stub or any of the many means by which fires are started by travelers.

Money could be used for this purpose by the supervisors from the 25 per cent fund which is received by the counties as income from national forests in such counties. It would also seem that it might be a good idea for the forest rangers and extra patrolmen to have authority to take the names of all campers who are entering the national forests with a statement from such campers as to where they intend to camp so that it may be known at any time just where the people are camping in the mountains in case assistance is needed for fighting of fires, or in case it may be necessary to fix the responsibility for forest fires which may occur.

It would not be a great burden upon the campers and would tend to make them more careful than if they should enter the forest without let or hindrance or supervision of any kind.

I am submitting these different ideas so that the members of the committee may turn them over in their minds with the idea that possibly with the beginning of the new year we may decide on an aggressive policy for protection of our water shed that will soon have a system completed in the best possible manner.

Respectfully submitted,
FRANCIS CUTTLE,
Chairman Tri-Counties Reforestation Committee.

QUAKER CITY PUTS ON FAIR

Will Hold Great Manufacturing
Exhibit—Event to Be One
of Real Magnitude

PHILADELPHIA, Oct. 9.—Business men of Philadelphia are putting together the finishing touches on for "the greatest manufacturers' exhibition" ever held here. The affair, commencing October 24 and continuing to November 1, is planned to be the most elaborate ever attempted by a like body in the east. Its success seems assured by the agreement of some of the largest and most influential manufacturers of the country to install exhibits.

The merchants in this section of the East will have private exhibitions and with the attractions of a Mardi Gras, it is expected that thousands of persons will be here from every section of the surrounding country. Every feature of the celebrated Coney Island Mardi Gras will be on the program, when it is definitely shaped. There will be the crowning of the queen, a great masked procession of revellers and a jubilee zone. Mayor Blankenburg has been invited to participate in the coronation exercises. Brass bands will be on the street corners.

Chief among the exhibits will be a varied display of textile products, including silks, knitted wares, underwear, hosiery, shirts, women's wear and men's wear, hardware, plumbing, tinware, building materials, automobiles and carriages, phonographs, pianos and other musical instruments, agriculture implements, stationery, foodstuffs, drugs, wet goods, furniture, carpets, tapestries, bedding, millinery and art objects.

INNOCENT MAN HAS PAIR WIVES

Insane Wife Recovers—Divorce Void—Authorities Try to Aid Him in Pickle

GENEVA, Oct. 10.—Owing to an error of judgment on the part of doctors in a lunatic asylum here, a wealthy manufacturer finds himself the husband of two wives and the father of two families, each consisting of two children. The legal authorities instead of prosecuting him for bigamy are trying to get him out of the difficulty.

The man's first wife became insane many years ago, and, after attempting to set fire to her house, she was confined to an asylum. She was declared to be incurably insane. After waiting several years the husband obtained a divorce on the medical certificate. He married again. Recently the doctors at the asylum have found that after the treatment, extending over six years, the first wife had recovered. They declared her sane and discharged her. The ground of divorce being "incurable insanity," and the woman being not legally sane, it is believed that the divorce does not hold good.

The second wife, who lives in Paris, refuses to meet the first. The husband is on the best of terms with both.

FANCY LUMP COAL
—Delivered to you at Santa Ana, \$12 per ton. Address Lee Chamberlain Co., Anaheim.

RICH YOUNG MEN ARE FIGHTING TAMMANY

Vincent Astor, Theo. Roosevelt, Jr., and Others of Similar Position in Ranks

NEW YORK, Oct. 9.—Vincent Astor has joined the fusion volunteer workers in the battle against Tammany. He will find himself working side by side with Elihu Root, Jr., son of the United States senator; Theodore Roosevelt, Jr., son of the former president; Charles E. Hughes, Jr., son of the former governor and present associate justice of the United States supreme court; Francis B. Sayre, soon to be the son-in-law of President Wilson, and other prominent young men.

As soon as Mr. Astor can complete jury duties, which may occupy him for a few days, he is to be asked to take charge of a group of young men in a house-to-house canvass to increase registration.

It is probable that Mr. Astor will be assigned to a post in the Twenty-ninth assembly district, his home district. Thousands of non-voters reside in this section. A majority of them are Irish.

A HAPPY CHILD IN JUST A FEW HOURS

If Cross, Feverish, Constipated, Give "California Syrup of Figs"

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered.

When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it, and it cannot cause injury. No difference what ails your little one—if full of cold, or a sore throat, diarrhoea, stomachache, bad breath, remember, a gentle "inside cleanser" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.

All Are Ridiculously Low Priced for a Car of this Standard Quality

BRIEF SPECIFICATIONS OF "32" CHASSIS

Front Axle—One piece drop forged I-beam, Timkin roller bearings.
Rear Axle—Full floating type.
Brakes—12x2 inch, 2 internal expanding, 2 external contracting.
Clutch—13 inch, Multiple disc, tempered saw steel.
Control—Gear shift and emergency brake lever, center.
Speed—4 to 50 miles an hour with pleasure.
Tires—Touring Car and Roadster, 30x3 1/2. Six Passenger Touring Car, Coupe and Delivery Car, 33x4 inches. Rims, quick detachable on all models.
Ignition—High tension magneto.
Motor—1 cylinder, 32 h. p. cast en bloc, long stroke, 3 1/4 bore by 5 1/2 inch stroke.
Oiling System—Pressure feed to all bearings and to cylinders.
Wheel Base—Touring Car, Roadster, Coupe and Delivery Car, 106 inches. Six passenger Touring Car, 126 inches.

ADVANTAGES OF THE HUPMOBILE MOTOR

1st Smaller mechanical losses and less wear to the working parts of the motor.
2nd Better cooling efficiency caused by the decrease to heat losses from the cylinder and better mixing of the fresh charge at its entrance into the cylinder.
3rd Smaller fuel consumption per unit of delivered power due to the above reasons.
4th Greater pulling power at all speeds.
5th Absence of noise and vibration.
6th Better for use of poor grade fuel.
7th Greater accessibility afforded the valve parts and motor piping due to the greater height of space available for their locations.
8th Better low speed performance characterized by the ability to haul the load.
9th Somewhat lower temperature and pressure of the exhaust.

Let Us Give You a Demonstration

We Also Have the Mitchell

We are fortunate enough to secure the agency of the Mitchell line of cars for this season. We

consider this line the best values in medium-priced cars.

Harper Motor Car Co.

Next to City Hall.

OLD NEWPORT NEWS BUDGET

OLD NEWPORT, Oct. 10.—Mrs. J. D. Hutton has been on the sick list for the past week. Miss Ethyl Walton of Santa Ana stayed with her. Mr. and Mrs. Wilson Selvidge are the proud parents of a baby girl. E. M. Redmond has moved his family to Santa Ana and has rented his ranch to Richard Nugent. Walter Cornman and Joseph Morgan spent Sunday at McClains. Charles, Bess, Anna and Grace McClain and Joe Morgan were among the young people who took dinner at the home of Archie McGowan in Santa Ana Sunday. Edith Ould went to Los Angeles Friday to spend several days with her sister, Fannie. Mr. and Mrs. Burtcher motored to Pasadena Tuesday afternoon. Ernest Wakeham sold all of his horses at auction Wednesday. J. D. Hutton, Emma and Mar Hutton, also Mrs. Pickering, attended "Ready Money" at the Grand Opera House. Willie Clatworthy is on the sick list. Ida Segerstrom went to Los Angeles Wednesday.
